

Zhonglin Liu

u3597461@connect.hku.hk

 Liu-Zhonglin (Joe)

EDUCATION

• The University of Hong Kong

Bachelor of Science, major in Mathematics and Economics

Sept 2022 - Aug 2026 (Expected)

Hong Kong SAR, China

- Young Scientist Scheme (YSS): An elite program offering early research training, mentorship, and international research opportunities for outstanding science students.
- Cumulative GPA: 3.88 / 4.3

• National University of Singapore

HKU Worldwide Undergraduate Student Exchange Programme

Jan 2025 - May 2025

Singapore

- Semester GPA: 4.9 / 5.0

RESEARCH INTERESTS

- Modelling of Complex Systems, Operations Research, Decision Making under Uncertainty, Applied Artificial Intelligence, Computational Biology.

RESEARCH EXPERIENCE

• Information Acquisition and Design (Ongoing)

2025 - Present

Supervisors: Dr. Hong Ming Tan & Prof. Jussi Keppo (NUS)

Developed a two-period model to optimize a pharmaceutical firm's clinical trial data collection for regulatory approval. Additionally, contributed to designing an incentive mechanism for a Large Language Model (LLM) platform to acquire high-quality user information.

• A PBN-RL-XAI Framework for Therapeutic Discovery in Melanoma

2025

Independent Research

Developed an integrated PBN-RL-XAI framework to discover therapeutic strategies for immunotherapy-resistant melanoma, identifying a novel 'hit-and-run' inhibition therapy.

• Inferring Progressive Disconnection in Alzheimer's Disease with PBNs

2025

Supervisor: Prof. Zhang Louxin (NUS) & Prof. Ching Wai Ki (HKU)

Developed a novel Probabilistic Boolean Network (PBN) framework to model effective connectivity in fMRI data, identifying a progressive disconnection of DMN-to-MTL pathways in Alzheimer's disease.

• A Comparative Study of Algorithms for the Travelling Salesman Problem

2024 - 2025

Supervisor: Prof. Zang Wenan (HKU)

Compared classical heuristics against hybrid reinforcement learning models for the Euclidean TSP, demonstrating that an Actor-Critic agent integrated with classical methods achieves competitive performance.

• Machine Learning Methods in Prediction of Online Portfolio Selection Problems

2023 - 2024

Supervisor: Prof. Ching Wai Ki (HKU)

This project investigated the integration of machine learning models, specifically LSTM and XGBoost, to predict asset prices for Online Portfolio Selection strategies.

WORK/PROJECT EXPERIENCE

- **Enhancing Mathematical Understanding via Manim** [🌐] [🔗] 2022 - Present
Hong Kong
Team Leader & Main Producer
 - Utilized Manim to create animated educational videos illustrating mathematical concepts. In charge of managing workflows and distributing tasks.
 - Served as the main producer for videos that were broadcast across the HKU campus via U-Vision, enhancing mathematical understanding for the university community. Example of my work: [Maths in a minute – 2025 - A very mathematical year](#).
- **Bank of China** August 2024
China
Credit Analyst Intern
 - Analyzed industry credit reports and prepared detailed financial summaries to support client credit evaluations.
- **Department of Mathematics, The University of Hong Kong** Oct 2023 - Dec 2023; Feb 2024 - May 2024
Hong Kong
Student Teaching Assistant
 - Assisted in teaching fundamental concepts of mathematics and multivariable calculus, conducting revision classes to improve student performance.
 - Developed video tutorials using Manim to visually simplify and explain complex mathematical concepts.
- **Essence Brilliant Limited** August 2023
Hong Kong
Education Content Developer
 - Created dynamic educational videos using Python and Manim to explain complex topics.
 - Managed team task distribution and facilitated communication between internal and external stakeholders.

HONORS AND AWARDS

- **Undergraduate Research Fellowship Programme with Research Internship Awards** 2025 - 2026
[🌐]
The University of Hong Kong
- **Wong Yung Chow Prize in Mathematics** 2024 - 2025
[🌐]
The University of Hong Kong
 - Awarded to the best 3rd year student in Mathematics, on the recommendation of the Head of Mathematics.
- **Hong Kong Chiu Chow Chamber of Commerce Rayson Huang Memorial Student Enrichment Award** 2024 - 2025
[🌐]
The University of Hong Kong
- **HKU Recognition Award for Distinguished Service to the Community** 2024 - 2025
[🌐]
The University of Hong Kong
 - Awarded for the “Enhancing Mathematical Understanding: A Students as Partners (SAP) Project in Animation and Engagement” group project, which enhanced mathematical understanding through animated videos made using Manim.
- **C.V. Starr Scholarships** 2024 - 2025
[🌐]
The University of Hong Kong
- **Summer Research Fellowship** 2023 - 2024
[🌐]
The University of Hong Kong
- **Dean’s Honours List** 2022 - 2023, 2023 - 2024, 2024 - 2025
The University of Hong Kong

EXTRACURRICULAR

- **Lead for Life Character Leadership Programme** 2022 - 2025
[🌐]
The University of Hong Kong
 - A multi-year programme focused on character leadership, mentorship, and service-learning. Participated in workshops on resilience and mindset, and completed a service project with the Mission for Migrant Workers.
- **Volunteer** 2023 – Present
[🌐]
Mission for Migrant Workers (MFMW)
 - Organized and supported community events, including charity raffles and free health service initiatives for migrant workers in Hong Kong. You may click the link on the right to view my sharing under my preferred name, Joe.

ADDITIONAL INFORMATION

Languages: Native Mandarin; Fluent English (TOEFL: 112/120)

Hobbies: Teaching, Photography, Fitness
